

HLTSS00067 Infection Control Skill Set (Transport and Logistics)

National ID: HLTSS00067 | State ID: AE113

About this course

Learn how to follow infection prevention and control policies and procedures in the transport and logistics industry.

You will also learn how to implement standard and transmission-based precautions and respond to infection risks within an organisation.

The Infection Control Skill Set has been primarily designed for delivery online. Students are expected to start and complete the online theory component of the course using the Blackboard learning platform within one week from the start date, and the practical activities associated with the training are expected to be completed within 3 weeks after the completion of the online component. The practical components required can be achieved through observation of your skills in a workplace setting, or through a video submission, or alternatively through a demonstration of your skills at one of our nominated campuses.

Nominated campuses include: Broome, Karratha, Kununurra and Pundulmurra (South Hedland).

Once you are enrolled your lecturer will be in contact with you prior to starting the scheduled course.

The skill set is free for everyone! Please note: The minimum age requirement to undertake this

course is 15 years old.

Overview

Semester 2, 2020

Halls Creek Campus

 When: **20 July to 25 September, 2020**

 How: **Distance learning**
