

AHC40916 Certificate IV in Conservation and Land Management

National ID: AHC40916 | State ID: BCZ9

About this course

Experience some of nature's greatest gifts and learn how best to preserve them.

This qualification assists participants to build on their existing skills within the conservation and land management industry, preparing them for employment in supervisory/management roles. Participants will gain practical skills in planning, implementing, costing and budgeting for conservation and land management projects. Participants will also gain skills in occupational health and safety, biodiversity practices, and gain knowledge on the natural environment.

Throughout this course, students will complete written assignments and work in teams to undertake a range of programs on country.

This course is delivered on country to ranger groups in the North West.
