

AHC31416 Certificate III in Conservation and Land Management

National ID: AHC31416 | State ID: BDC1

About this course

Experience some of nature's greatest gifts and learn how best to preserve them.

The Certificate III in Conservation and Land Management provides participants with a solid understanding of the conservation and land management industry. Students can elect to focus on Indigenous land management, conservation earthworks, lands, parks and wildlife, or natural area management.

Throughout this course, students will complete written assignments and work in teams to undertake programs that assist in maintaining the natural environment. Participants will gain practical skills in occupational health and safety, fire management, biodiversity surveying, mapping and an understanding of remote operations.

This course is delivered on country to ranger groups in the North West.
