

Skid Steer Loader Operations Skill Set

State ID: IAA19

About this course

Your health and safety is important to us.

Spaces are limited in face-to-face classes to adhere to social distancing guidelines. Additional hygiene protocols will be implemented and other controls may apply. Students must follow the directions of the lecturer to ensure the health and safety of all students and teaching staff.

Gain the skills and knowledge required to conduct civil construction skidsteer loader operations within the civil construction industry.

Participants will learn how to:

- Operate a Bobcat/skidsteer
- Plan and prepare for skidsteer loader operations
- Load, carry and place materials
- Select, remove and fit attachments
- Move the skidsteer safely between worksites
- Undertake machine maintenance
- Clear and maintain work area

*** If participants are working in the civil construction industry or have previous experience documented in**

a logbook prior to undertaking this training, a fast track process may be available. Please talk to your local lecturer.
