

Working Safely at Heights Skill Set

State ID: IAA20

About this course

Your health and safety is important to us.

Spaces are limited in face-to-face classes to adhere to social distancing guidelines. Additional hygiene protocols will be implemented and other controls may apply. Students must follow the directions of the lecturer to ensure the health and safety of all students and teaching staff.

Seeking a role in the resources and infrastructure industry that requires you to perform work at heights?

The Working Safely at Heights Skill Set aims to provide participants with the ability to work confidently and competently at heights.

This course covers:

- Occupational Health and Safety law, legislation and standards relating to working at heights
- Identifying, monitoring and reassessing risk control measures
- Fall arrest systems
- Personal Protective Equipment
- Planning, access and egress
- Safely performing duties
- System dismantle and pack up
