

Tag and Test Electrical Appliances Skill Set

State ID: IAB16

About this course

Your health and safety is important to us.

Spaces are limited in face-to-face classes to adhere to social distancing guidelines. Additional hygiene protocols will be implemented and other controls may apply. Students must follow the directions of the lecturer to ensure the health and safety of all students and teaching staff.

The testing and tagging of electrical equipment must be performed by trained individuals.

Upon successful completion of this course, participants will be able to test and tag electrical equipment as per Australian Standards 3760 and 3012. Participants will be trained to confidently perform testing and tagging, while meeting compliance and ensuring the safety of staff on the worksite.

Personal Protective Equipment (PPE), including long trousers, a long sleeved shirt and covered footwear must be worn throughout the duration of the course.
