

Manual Handling Skill Set

State ID **IAA53**

Learn manual handling techniques to avoid injuries.

The Manual Handling Skill Set is a one-day course that provides a contemporary approach to understanding the functional movement of our body, and adopting smart manual handling practices to preserve it.

Campuses Karratha Campus.

Semesters Semester 2, 2024.

Study Mode On campus.

This course guides participants through the correct techniques to avoid injuries when completing manual handling tasks. Prevention tips will be explored throughout this course, to assist participants in maximising their body's performance, both on and off of the job.

Unit:

TLID0020 Shift materials safely using manual handling methods

Not all units and study modes are offered at all campuses. Please check with your local campus.

Disclaimers

Our **estimated fees** are based on:

- Full time study in 2024
- A selection of elective units designed to meet local industry demand for skills (different unit selections will attract different fees)
- For more information regarding eligibility and fees, please visit [DTWD website](#).

These fees are **estimates only** and depend on your eligibility for government funding, concession rates, the units you choose to study or seek to be recognised under Recognition of Prior Learning (RPL). Additional resource, material and/or equipment costs may apply. Visit our [Fees and Charges page](#) for more information, including on consumer rights.

Please note the fees displayed are an **estimate only**. Additional fees may apply. Please check with our Client Services Team upon enrolment. Important information on consumer rights including refunds, withdrawals and cancellation of courses can be found [here](#) or at your nearest campus. Please check this information prior to enrolling.
